PROFESSIONAL PROFILE

Mechanical Engineering graduate of Lagos State University with project management certification and experience across engineering support, technical operations, and administration. Combines hands-on work with control systems, renewable energy, and robotics with backend development and product thinking. Has co-led a solar installation serving 10 student hostels and co-founded a student-focused project management initiative.

PROFESSIONAL EXPERIENCE

Control Engineer Assistant & Administrative Assistant

Ecotech Engineering & Consulting Services Ltd, Nigeria | Jan 2026 - Mar 2026

- Interpreted piping and instrumentation diagrams (P&IDs) to support valve selection and system troubleshooting.
- Coordinated engineering project documentation and supported improvements to administrative workflows.

Industrial Trainee

Aerial Robotics, Lekki, Nigeria | Oct 2023 - Feb 2024

- Assisted with drone hardware assembly, calibration, and embedded systems software.
- Supported diagnostic testing and flight-readiness preparation for unmanned aerial vehicles.

Administrative Manager Assistant (Part-Time)

6/4 Properties, Ilupeju, Nigeria | Aug 2019 - Aug 2022

- Managed landlord-tenant communications, maintained leasing records, and coordinated property maintenance schedules.
- Resolved structural inquiries and supported accurate administrative record-keeping.

Lead Engineer Assistant

EES Systems Nigeria Ltd, Ikorodu, Nigeria | Mar 2019 - Dec 2020

- Supported the installation, wiring, and maintenance of industrial and commercial electronic and sound systems.

EDUCATION

B.Sc. Mechanical Engineering

Lagos State University (LASU), Ojo and Epe | Oct 2020 - Aug 2025

JOSIAH EWUMI

Technical practice, selected projects & capabilities

TECHNICAL & CREATIVE PRACTICE

Backend Development & Prompt Engineering

Apprentice & Graduate Trainee | Tech Sphere Academy (TS Academy), Nigeria

- Built server-side logic, integrated RESTful APIs, and worked with relational databases using Python frameworks.
- Designed and iterated prompts for large language models to improve response quality and support workflow automation.

Graphic Design, Social Media & Content Creation

Freelance & Digital Media Practice, Nigeria

- Created digital posters, event flyers, and brand identity assets using Photoshop and Canva.
- Developed content calendars and social media growth strategies, and monitored audience analytics to inform engagement.

SELECTED PROJECTS

12 kVA Solar Power Installation

Co-Lead Engineer

- Co-led the design, procurement, mounting, and electrical integration of a solar power system serving 10 university student hostels.
- Managed load calculations, battery bank layouts, and inverter configurations.

Project Management Circle (PMC)

Co-Founder

- Co-founded PMC and led its flagship campus-wide mental health and depression awareness initiative, designed to provide psychological support and counseling hubs for students.

CERTIFICATIONS & TRAINING

Professional Certification in Project Management - Project 1500 LASU Cohort Excels Program | Nov 2025 - Dec 2025

Professional Certification in Backend Web Development - Tech Sphere Academy

OPL Academy - Training graduate

SKILLS & LANGUAGES

Engineering: P&IDs, industrial control valves, electronic and sound systems, gas systems, and solar power installation.

Software & digital: Python backend development, API integration, database management, prompt engineering, Photoshop, Canva, Google Workspace, and Microsoft Excel.

Delivery & operations: Project planning, resource allocation, risk management, Agile and traditional project management, administration, and team coordination.

Languages: English (fluent), Yoruba (native), Japanese (learning).
